THE STORY OF
LAND
ITS USE AND MISUSE
THROUGH THE CENTURIES

During his term as Burgess from Frederick County we can find one bit of legislation affecting the Town of Winchester, which he sponsored. The Journal of the House of Burgess for March 1, 1761 (Page 228) records that “Mr. Washington presented to the House, according to order, a bill to prevent hogs running at large within the Town of Winchester or the limits thereof.”

Washington continued as Burgess from Frederick County until July 16, 1761. A vacancy had occurred in Fairfax County and he, therefore, sought a seat nearer home, where it would be easier for him to make a canvass and announced for the vacancy, at the same time declining election in Frederick. He won election and became Fairfax Burgess, which position he held for many years. (*Papers of George Washington* Library of Congress -826).
